## OPEN-SOURCE PROJECTS

- “Filtreur.js” 2019  
User interface library and JavaScript plug-in.  
Declarative HTML library for filtering elements on a web page.  
[www.achrafkassioui.com/filtreur](http://www.achrafkassioui.com/filtreur)
- “Showlog.js” 2019  
Web development utility and JavaScript plug-in.  
Shows `console.log` messages on screen for debugging on mobile devices.  
[www.achrafkassiouicom/showlog](http://www.achrafkassiouicom/showlog)
- “Backspace Mirror” 2018  
User interface prototype for iOS and in-depth case study.  
Shows the user which text will get deleted faster while holding “backspace.”  
[www.achrafkassioui.com/backspace-mirror](http://www.achrafkassioui.com/backspace-mirror)
- “Birdview.js” 2017  
User interface experiment and JavaScript plug-in.  
Gives the user a bird’s-eye view of a web page.  
[www.achrafkassioui.com/birdview](http://www.achrafkassioui.com/birdview)

## TEACHING

- Front-end design and development. 2019  
Intensive bootcamp program.  
3W Academy Maroc/Jobintech, Casablanca.
- “Les métiers de l’informatique” 2011–2019  
Educational workshop for high-school students.  
Lycée Regnault, French school of Tangier.
- “What is UX Design?” 2016  
Introduction to user experience design for software development and marketing students.  
Centre des Études Supérieures d’Ingénierie et de Management, Tangier.
